Garvin, Licensed Broker, Lecturer, and Teacher with 30 years experience, and Instructor of Real Estate Classes in Santa Monica, Santa Ana, Pomona, etc. Reasonable tuition, payable weekly. Prospective students are invited to attend the "Opening Session" without charge or obligation.

Adjustments Needed For Top Car Performance

Most motorists have been greatly impressed with the brilliant performance of their cars with the new post-war gasolines. However, many of them still are not getting the top performance that they could easily secure from these gasolines with slight engine adjustments.

This friendly tip to drivers is offered by Clarence S. Beechmyer, Vice President of General Petroleum Corporation, and it affects all gasolines and all high compression motors.

"The high octane gasoline necessary for better results in high compression motors calls for an advanced spark and some minor carburetor adjustments," states Beechmyer.

RAIN FALL

Rain falling in Torrance area the first part of the week totaled .32 inches, according to Fire Chief J. E. McMaster, bringing the year's total to 7.51 inches as compared to 10.60 for this same date last year.

TO ENJOY LEAVE

S/Sgt. Jack King, AAF, is expected here this weekend for a 45 day leave with his parents, Mr. and Mrs. Tom J. King, of 1521 Amapola ave. S/Sgt. King's leave follows one and a half year's service.

AT NEELY HOME

Capt. William Earl Studdard, attached to a quartermaster corps, A. A. F., spent last weekend at the Sam Neely's house guest. He was enroute from four year's service in England to McCord Field, Washington. Capt. Studdard had been a Bank of America employe here before he entered service.

The great standard of literature, as to purity and exactness of style, is the Bible. Blair

Guns, Tanks Available For Use In Parks

Torrance will seek some of the thousands of obsolete guns, howitzers, tanks and other ordnance items which will soon be released by the Army. In many cities, they will take the place of the old cannon or howitzer that went to war via the nation-wide scrap drive, Col. K. B. Harmon, district chief of the San Francisco ordnance district, announced.

After Pearl Harbor many communities and organizations swelled desperately needed scrap piles with their Civil War cannon balls and pyramids of cannon balls. Town squares were stripped of all World War I weapons to add to the drive.

These community organizations can now apply for items of obsolete combat material which the Ordnance Department is authorized to scrap according to a recent policy announced by Major General Henry B. Saylor, Deputy Chief of Ordnance in Washington.

Also eligible are posts of the Veterans of Foreign Wars, American Legion, Grand Army of the Republic, Sons of Veterans Reserve, and other war veteran's associations, non-profit museums and municipal corporations.

About four thousand weapons valued at more than a million dollars in original cost have been declared obsolete by the War Department. Over two thousand of these weapons are big guns and howitzers.

Organizations applying to the Chief of Ordnance, Washington, D.C., for these obsolete weapons must assume all packing, handling, and transportation expenses from the nearest depot. Howitzers weigh about twelve thousand pounds; big guns run about 20,000 pounds, light tanks tip the scales at about 33,000 pounds, and transportation expenses should be considered before ordering a new decoration for the village green.

Quarantine Of Beach Is Extended

The northern boundary of the stretch of Los Angeles beach quarantined by the State Board of Public Health because of sewage pollution has been extended to Seaside Terrace, south of the Santa Monica pier.

The original quarantine extended from 14th st. north of the Hermosa Beach pier in Hermosa Beach to Brooks ave. north of the Venice pier in Los Angeles.

Studies conducted by the Bureau of Sanitary Engineering of the State Department of Public Health have demonstrated that bacterial pollution from sewage has spread northward to Seaside Terrace in Santa Monica. The southern limits of the quarantine remain at 14th st. in Hermosa Beach.

The new quarantine order follows:

"Whereas, Laboratory studies and sanitation inspections made by the California State Department of Public Health during 1945 have shown that the ocean beaches and shore waters of Santa Monica Bay, extending from Fourteenth (14th) st. north of the Hermosa Beach Pier in Hermosa Beach, to Seaside Terrace south of the Santa Monica Pier in the City of Santa Monica, are contaminated and polluted with sewage to a dangerous degree; and

"Whereas, This condition constitutes a menace to the health of persons using these beaches; and

"Resolved, That the California State Board of Public Health, meeting in Los Angeles on Saturday, Oct. 13, 1945, does hereby establish a quarantine of the stretch of beach extending from Fourteenth st. north of the Hermosa Beach Pier, to Seaside Terrace south of the Santa Monica Pier in the City of Santa Monica. Quarantine under this Order means the exclusion of the public from the shore waters and the beach in the area described above extending to the beach to the point reached by high tide; and be it further

"RESOLVED, That, pursuant to the above findings of the California State Board of Public Health, a copy of this Resolution be sent to all City and County Health Officers within the area herein described, notifying and advising them of said quarantine and directing that they post signs warning the public that the area is under quarantine and that they enforce the provisions of this Order.

"Said action is taken for the preservation of the public health pursuant to the provisions of the Health and Safety Code of the State of California."

TORRANCE HONOR STUDENT ENTERS OCCIDENTAL

Miss Doris Robinette, 18, daughter of Mr. and Mrs. Earl Robinette, of 1018 Acacia ave., left last week to attend Occidental College.

Graduating with the Torrance high school class of winter '45, she holds the Epeheban winner award of her class and is a life member in the California Scholarship Federation.

Patience does not mean indifference. We may work and trust and wait, but we ought not to be idle or careless while waiting.

—Gail Hamilton

Guardsmen were called in for the fire in San Diego county, and Hartman took 14 walkie-talkie sets to Monterey county. Hansen reported to the Governor.

Walkie-Talkie Sets Of Guard Help Fight Fire

Adjutant General Victor R. Hansen has reported to Gov. Earl Warren that "walkie-talkie" radio sets were dispatched by the California State Guard to help in fighting recent bad forest fires in Mendocino, Monterey and San Diego counties.

State Forester DeWitt L. Nelson said this enabled fire-fighting crews "to save hours and hours of messenger service, the importance of which is emphasized when it is remembered that time is of the essence in putting out a fire."

"While the walkie-talkie has a range of only five miles," Nelson said, "this makes it possible for units of a crew to keep in constant communication with its fire camp, and to coordinate the efforts on far-flung fire lines."

Purchase of 60 of the sets as permanent Division of Forestry equipment was authorized in the budget submitted to the 1945 Legislature by Governor Warren and approved, Nelson added.

The sets will be distributed to the Division's ranger stations.

Capt. Harold Hartman, State Guard communications officer, and two of his men installed the walkie-talkie "network" on the Mendocino fire. Seven State

Reconversion Steps Discovered To Be Simple

First physical steps of reconversion were accomplished in California with less difficulty than anticipated, the board of directors of the California State Chamber of Commerce was advised in a report on economic conditions at a recent board meeting. Harrison S. Robinson, Oakland, president of the State Chamber, conducted the meeting.

"However, impact of curtailed federal spending has not yet been felt in California, due to continuation of heavy movements of military personnel and supplies in and out of the Pacific area," Alfred J. Lundberg, Oakland, stated. "Bank deposits continue to increase, and dollar volume department store trade in August and September was 5 per cent above the same months in 1944. U. S. Employment Service offices in seven principal labor markets reported 82,000 unfilled openings in non-agricultural activities listed with them Oct. 1.

Coast Guardsman Marion C. Wells, machinist's mate second class, the son of Mr. and Mrs. H. H. Wells, Lomita, California, contributed to the defeat of the Japs by his service aboard a Coast Guard manned freight supply ship in the Pacific. He is shown here with his ship's mascots, two monkeys.

CUPID'S HOURS CHANGED

According to Supervisor Raymond V. Darby, the Board of Supervisors at its Tuesday meeting authorized the drafting of an ordinance to amend the existing hours at which the marriage license division is open to the public. Under the new ordinance the hours will be from 8:00 a.m. to 5:00 p.m. on week days and from 8:00 a.m. to noon on Saturdays.

ANOTHER DAUGHTER FOR JAIN

City Engineer, Glenn M. Jain, passed out the cigars Monday and announced the birth of his second daughter, Carol Lynn, born Oct. 29, at 2:15 a.m., at the Methodist Hospital in Los Angeles. Jain reports that the mother and daughter are doing fine.

HARRY RICHART HOME

Harry Richhart, painter, 2/c, USN, arrived Tuesday following 30 months overseas duty and 3 1/2 years in service. He is a son of Mr. and Mrs. H. G. Richhart, 1424 W. 218th st.

RETURNS TO SCHOOL

TRANS-PLASTIC MIRROR FINISH

FOR HOME FOR OFFICE FOR FACTORY

You'll be amazed at the difference just one coat will make, how easy Trans-Plastic flows on without brush marks, how it covers and hides in one coat over even old, badly worn surfaces. This miracle finish, mirror-like in smoothness, tough enough for industrial use, yet dainty enough to blend with the delicate, soft colors of the finest homes, provides a new note in modern decoration!

Trans-Plastic does not crack, chip or peel. It comes up gleaming even after frequent scrubbing and hard wear. Its glossy surface resists alcohol, fruit juices, heat, boiling water and the daily torture of hard wear underfoot.

The wide range of carefully selected colors gives home-owners as well as maintenance men an opportunity to modernize rooms easily, quickly and inexpensively. Use Trans-Plastic and see what a difference today's colors will make.
